Shaken Baby Syndrome

Provider's Name: Willow Tree Academy

It is important to provide infants with a safe place to grow & learn. I have established this policy to prevent, recognize respond and report shaken baby syndrome and abusive head trauma (SBS/AHT), as well. As implementing safe sleep practices. As a state licensed childcare facility, we understand the importance of ensuring the health and safety of children, providing quality care, and educating families.

Shaken Baby Syndrome/Abusive Head Trauma (SBS/AHT)

Procedure:

Recognizing SBS/AHT:

- Children will be observed for signs of abusive head trauma including irritability and/or high-pitched crying, difficulty staying awake, loss of consciousness, difficulty breathing, inability to lift the head, seizures, lack of appetite, vomiting, bruising, poor feeding or sucking, no smiling or vocalization, inability of eyes to track/or decreased muscle tone.

Responding to SBS/AHT

- If SBS/AHT is suspected, the provider and/or assistant will:
 - Call 911 immediately upon suspecting SBS/AHT
 - Call the parents or guardians
 - If the child has stopped breathing, a trained staff will begin CPR

Reporting SBS/AHT

- Instances of suspected maltreatment of a child are reported to Virginia Child Protective Services hotline 1-800-552-7096.

Prevention Strategies for caregivers to cope with a crying child:

- Check the child to determine if they are hungry, tired, sick or need a diaper change
- Rock the child, hold the child close or walk with the child
- Sing or talk to the child in a soothing voice
- Rub the child's back, chest or tummy gently
- Provide the child with a pacifier, rattle, or toy
- Take the child for a ride in the stroller
- Play soft music

**In addition, the provider will:

- Allow caregivers who feel they may lose control to have a short break away from the children
- Provide support to parents who are trying to calm a crying child and encourage parents to also take a calming break, if needed.
